DETAILED ACTION

Claim Rejections - 35 USC § 112

Claims 1-3 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

As concerns claim 1, there is an inconsistency between the language in the preamble and certain portions in the body of the claims, thereby making the scope of the claims unclear. For example, the preamble clearly indicates that the subcombination of an "escape apparatus" is being claimed. However, the body of the claim positively recites the "building", e.g., "mounted to an outward wall", in line 5, and "mounted to an upper landing wall", in line 8, which indicates the claims as being drawn to a combination of the "apparatus" and the "building". Therefore, the applicant is required to clarify what the claims are intended to be drawn to, i.e., either the "apparatus" alone or in combination with the "building", and to present the claims with the language which is consistent with the invention. The applicant should note that "*adapted to be*" language may be appropriate if claiming the "apparatus" alone (i.e., "adapted to be secured to").

Claim Rejections - 35 USC § 103

Claims 1 and 3 are rejected under 35 U.S.C. 103(a) as being unpatentable over ***Sternberg 6,616,396 in view of Buffaloe 5,769,593.***

Sternberg sets forth an apparatus comprising a ramp platform 18; a plurality of hinges (inclusive of members 52; and a motion retarding reel 32 comprising a cable 28 and hook 37. What Sternberg does not set forth is a latch for impinging the ramp between stowed and deployed states. However, **Buffaloe teaches** the use of a latch 88 within a ramp system for impinging a ramp between stowed and deployed states. Therefore, it would have been obvious to one of ordinary skill in the art at the time the invention was made to modify the apparatus of Sternberg by incorporating a latch, as taught by Buffaloe, in order to impinging the ramp between stowed and deployed states.

Claim 2 is rejected under 35 U.S.C. 103(a) as being unpatentable over **Sternberg in view of Buffaloe further in view of Beeman 6,009,587.**

Sternberg in view of Buffaloe set forth the apparatus, as advanced above, except for the lip edge on the ramp platform. However, **Beeman teaches** the use of lip edges 4 upon a ramp platform. Therefore, it would have been obvious to one of ordinary skill in the art at the time the invention was made to modify the apparatus of Sternberg in view of Buffaloe by incorporating a lip edge, as taught by Beeman, in order to resist an object from running off the side(s) of the platform during use.

Response to Amendment

Applicant's remarks filed August 5, 2004 have been fully considered but they are not deemed to be persuasive.

As concerns remarks pertaining to the ramp of Sternberg not spanning the distance from the upper landing to the lower landing of a/the stairway, the examiner points out that the upper landing and the lower landing are NOT being claimed as part of the invention, and therefore cannot be compared thereto. As for the rollers and notches of Sternberg, the examiner takes the position that since the rollers and notches can and do act as a pivot point between the ramp and landing, they can be view as a hinge and/or hinge point. Finally, as concerns the motion retarding reel, the examiner points out that the electric "winch" of Sternberg does "retard" motion, and that the language of "self-retracting" is not supported by any mechanical limitations within the claim, and since the reel of Sternberg CAN be retracted (even if requiring electric power), it follows that it CAN be self-retracted.

Conclusion

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office Action.

THIS ACTION IS MADE FINAL. See M.P.E.P. § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 C.F.R. § 1.136(a).

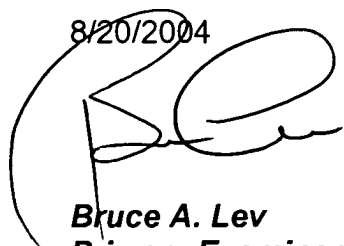

A SHORTENED STATUTORY PERIOD FOR RESPONSE TO THIS FINAL ACTION IS SET TO EXPIRE THREE MONTHS FROM THE DATE OF THIS ACTION. IN THE EVENT A FIRST RESPONSE IS FILED WITHIN TWO MONTHS OF THE MAILING DATE OF THIS FINAL ACTION AND THE ADVISORY ACTION IS NOT MAILED UNTIL AFTER THE END OF THE THREE-MONTH SHORTENED STATUTORY PERIOD, THEN THE SHORTENED STATUTORY PERIOD WILL EXPIRE ON THE DATE THE ADVISORY ACTION IS MAILED, AND ANY EXTENSION FEE PURSUANT TO 37 C.F.R. § 1.136(a) WILL BE CALCULATED FROM THE MAILING DATE OF THE ADVISORY ACTION. IN NO EVENT WILL THE STATUTORY PERIOD FOR RESPONSE EXPIRE LATER THAN SIX MONTHS FROM THE DATE OF THIS FINAL ACTION.
